

CRUISING GROUP

RGYC Cruising Group activity program continues to grow and find success with its many participants. There have been the well attended monthly Cruising Dinners over the cooler months. There were guest speakers on topics as diverse as the separate cruises to King and Flinders Islands and a very informative talk about cruising through Indonesia. This voyage was undertaken by John and Kerryn Peirce on their yacht, "Esoterica", and it has inspired others to consider taking the same trip. The popularity of progressive dinners held on several yachts berthed at the RGYC visitor's pontoon has

meant that we run one in April and another in November.

The Cruising Group is coordinated by Grant St. Quentin and Dick O'Hanlon. They have organised activities for all Club Members such as the Flares and Fires practical exercise run by Vic Goy and the excellent Trip to the Rip day / night voyage on "Delphinus", also provided by Vic. Both events were very enjoyable and informative.

The RGYC Cruising Group invites all Club Members to attend the dinners and activities held throughout the year.
